**ABDOMINAL CT SCAN WITH AND WITHOUT CONTRAST
(UPPER ABDOMEN, KIDNEY, PANCREAS, STOMACH, ADRENALS)**

1. Pre-mixed READICAT is taken with the evening meal the night before.
2. GASTROGRAFIN is mixed with any fruit juice to make 16 ounces of liquid and taken 1 hour prior to the exam. Although it is not necessary to refrigerate either of these, the READICAT tastes better cold and the GASTROGRAFIN also tastes better cold and taken in juice.
 - READICAT and GASTROGRAFIN must be picked up at the x-ray department prior to the exam
3. You must have clear liquids only for the 4 hours prior to the exam. You may take any medications prescribed for you.
